

**STATEMENT OF WORK**  
**Upland Wildlife Habitat Management (645)**  
**TENNESSEE**

**These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.**

**DESIGN**

---

**Deliverables:**

1. Design documentation that will demonstrate that the criteria in NRCS practice standard have been met and are compatible with other planned and applied practices.
2. Practice purpose(s) as identified in the conservation plan.
3. List of required (applicable) permits to be obtained by the client (e.g. burn permit, ARAP permit).
4. List of facilitating practices.
5. Practice standard criteria-related inventories and analyses to develop Upland Wildlife Habitat Management plans and specifications including but not limited to:
  - a. A resource inventory, including a completed TN-CPA-25.
  - b. Identification of wildlife-targeted species and habitat requirements.
  - c. A completed *Wildlife Habitat Evaluation Procedure for Resource Management Systems* (Section III of FOTG).
6. Operation and maintenance plan.
7. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.
8. Certifications that the design meets practice standard criteria and comply with applicable laws and regulations.
9. Design modifications during installation, as required.

**INSTALLATION**

---

**Deliverables:**

1. Pre-application conference with client.
2. Verification that client has obtained required permits.
3. Application assistance.

**STATEMENT OF WORK**  
**Upland Wildlife Habitat Management (645)**  
**TENNESSEE**

4. Facilitate and implement required Upland Wildlife Habitat Management Plan modifications with client and original designer.
5. Certification that the application process meets Upland Wildlife Habitat Management Plan and permit requirements.
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations, and NRCS policies during installation.
7. Certification that the application process and materials meet design and permit requirements.

---

**CHECK OUT****Deliverables:**

1. Records of application.
  - a. Extent of practice units applied.
2. Certification that the installation meets NRCS standards and specifications and is in compliance with permits.
3. Progress reporting.

---
